

# About the Authors

**John Abatzoglou**, PhD, is an associate professor of geography at the University of Idaho.

**Elizabeth Allen**, PhD, is a research associate in the Center for Sustaining Agriculture and Natural Resources at Washington State University.

**John Antle**, PhD, is a professor of applied economics at Oregon State University.

**Rakesh Awale**, PhD, is a post-doctoral researcher at the Columbia Basin Agricultural Research Center, Oregon State University.

**Andy Bary** is a senior scientific assistant of crop and soil science at Washington State University.

**Edward Bechinski**, PhD, is a professor of entomology, plant pathology, and nematology at the University of Idaho.

**Prakriti Bista**, PhD, is a post-doctoral researcher in crop and soil sciences at Oregon State University.

**Kristy Borrelli**, PhD, is an Extension educator in sustainable agriculture at Pennsylvania State University, formerly an Extension specialist at the University of Idaho.

**Nilsa Bosque-Pérez**, PhD, is a professor of entomology, plant pathology, and nematology at the University of Idaho.

**Tabitha Brown**, PhD, is a research associate of crop and soil science at Washington State University.

**Ian Burke**, PhD, is an associate professor of crop and soil science at Washington State University.

**Susan Capalbo**, PhD, is a professor of agricultural resource economics and Senior Vice Provost for Academic Affairs at Oregon State University.

**Paul Carter**, PhD, is a Columbia County Extension agronomist and soil scientist at Washington State University.

## About the Authors

**Xianming Chen**, PhD, is a research plant pathologist for the USDA-ARS Wheat Health, Genetics, and Quality Research Unit and Washington State University.

**David Crowder**, PhD, is an assistant professor of entomology at Washington State University.

**Sanford Eigenbrode**, PhD, is a professor of entomology at the University of Idaho.

**Rajan Ghimire**, PhD, is an assistant professor of cropping systems at New Mexico State University, formerly a post-doctoral researcher at Oregon State University.

**Haiying Tao**, PhD, is an assistant professor of crop and soil science at Washington State University.

**Laurie Houston** is a senior faculty research assistant in applied economics at Oregon State University.

**David Huggins**, PhD, is a research soil scientist with the USDA-ARS Northwest Sustainable Agroecosystems Research Unit and Washington State University.

**Kendall Kahl** is a research assistant in soil science at the University of Idaho.

**Elizabeth Kirby** is a research associate in the Center for Sustaining Agriculture and Natural Resources at Washington State University.

**Chad Kruger** is the director of the Center for Sustaining Agriculture and Natural Resources at Washington State University.

**Tai Maaz**, PhD, is a post-doctoral researcher in crop and soil science at Washington State University.

**Stephen Machado**, PhD, is a professor and dryland cropping system agronomist at Oregon State University.

**Timothy Murray**, PhD, is a professor of plant pathology at Washington State University.

**Kate Painter**, PhD, is an assistant professor of agricultural economics and Extension educator at the University of Idaho.

## About the Authors

**Bill Pan**, PhD, is a professor of crop and soil science at Washington State University.

**Timothy Paulitz**, PhD, is a research plant pathologist for the USDA-ARS Wheat Health, Genetics, and Quality Research Unit and Washington State University.

**Kirti Rajagopalan**, PhD, is a research associate in the Center for Sustaining Agriculture and Natural Resources at Washington State University.

**Arash Rashed**, PhD, is an assistant professor of ecological entomology at the University of Idaho.

**Silvia Rondon**, PhD, is an associate professor of crop and soil science at Oregon State University.

**Kurtis Schroeder**, PhD, is an assistant professor of cropping systems agronomy and plant pathology at the University of Idaho.

**Clark Seavert** is a professor of applied economics at Oregon State University.

**Bradley Stokes** is an Extension associate professor at the University of Idaho.

**Nicole Tautges**, PhD, is a post-doctoral researcher in crop and soil science at Washington State University.

**Bertie Weddell**, PhD, is a research associate in the Center for Sustaining Agriculture and Natural Resources at Washington State University.

**Don Wysocki**, PhD, is an associate professor of crop and soil science at Oregon State University.

**Georgine Yorgey** is the assistant director of the Center for Sustaining Agriculture and Natural Resources at Washington State University.

**Frank Young**, PhD, is a research agronomist for the USDA-ARS Northwest Sustainable Agroecosystems Research Unit and Washington State University.
